

## Primer Deter 500

### *Product Type*

Plaster Primer Deter is a non-pigmented product. It is chemical and scratch resistant, fresh and sea water proof. If applied on concrete or masonry surfaces, it offers an acid resistance.

### *Specific Charecteristic:*

Deter Sealer is a great primer for surfaces that would be covered with deter roll, thus it would ensure a long life protection against U.V. light, abrasion and water resistance.

### *Areas of Use*

Deter Sealer can be used on primer sealer or finish to potable water concrete reservoirs due to its non-toxic feature. Moreover it can be used on concrete roofs, floors, walls and facades.

---

## Usage Instruction

### **Pretreatment:**

#### *New Surfaces*

The surface must be dry, cleaned and cleared from any particles, dirt, rust, oil or other foreign matters.

Firt coat: To ensure maximum bonding surface and penetration, thin with Deter solvent at a radio of 1 to 1

Second coat: Thin up to 25% with Deter thinner allowing an interval time of at least 4 hours between consecutive applications.

#### *Packaging*

1 Drum

1 US Gallon

1 kilo

1/2 kilo

#### *Thinning*

White Spirit

#### *Application*

Brush, Roll or Spray gun.
